

IS IT TIME TO REPLACE YOUR WIPERS?

Are your wipers leaving streaks and smears over the windshield and rubbing against the glass? Does this cause you to no longer have good visibility on the road in bad weather? Then it is high time that you replace your wiper blades!

Worn out windshield wipers are not only a nuisance – but they also constitute a huge safety hazard and in a worst case scenario they can be the cause of an accident.

So when the time comes for you to replace your wipers, you shouldn't rely on a no-name brand but put your trust in the first-class quality windshield wipers from HELLA. Our wiper blades will immediately stand out from the crowd in many different ways:

- Efficient wiping performance thanks to advanced wiper blade-technologies and a graphite coating
- Quick wiper blade replacement thanks to the EasyChange procedure
- Long-lasting service life because of their top quality material
- Optimized design aimed at minimizing wind noise
